

Tips When Shopping for The Net

1. No preference on brands
2. Sugar & creamer – we prefer the canisters where they can serve themselves directly from the canister instead of the individual packets.
3. Hot cocoa mix – should be in the bulk containers because we use tons of this. For example, the individual hot cocoa packages don't work because we mix up big coffee pots of hot chocolate so we need large quantities and not individual cup servings. The Hot Cocoa Mix should be the kind you can mix with water not milk.
4. Cookie/Cake mixes – please do not send mixes that require any ingredients other than water, eggs, oil, and butter. We do not stock other ingredients and it's very expensive to buy them at the local grocery store.
